

How to Link a New Identify to an Existing Globus Account

1. Log in to Globus and click on "Account" in the upper right. This will take you to the [account page](#). Click on "Add Linked Identity" in the upper right.

2. In the textbox, search for “Princeton University”. Select “Princeton University” and click “Continue”.

The screenshot shows a web browser window with the address bar displaying `auth.globus.org`. The page header features the Globus logo. The main heading is "Select an identity to link". Below this, there is a paragraph of instructions: "Please select one of the following identity providers and log in to the account you wish to link to your existing Globus account. You can also [link an email address](#) to your Globus account. (Your Globus username and password used prior to February 13, 2016 is now Globus ID)". A dropdown menu is visible with "Princeton University" selected. A blue "Continue" button is highlighted with a red circle. At the bottom, there is a section with a green circular arrow icon and text explaining the use of CILogon and the terms of service.

Select an identity to link

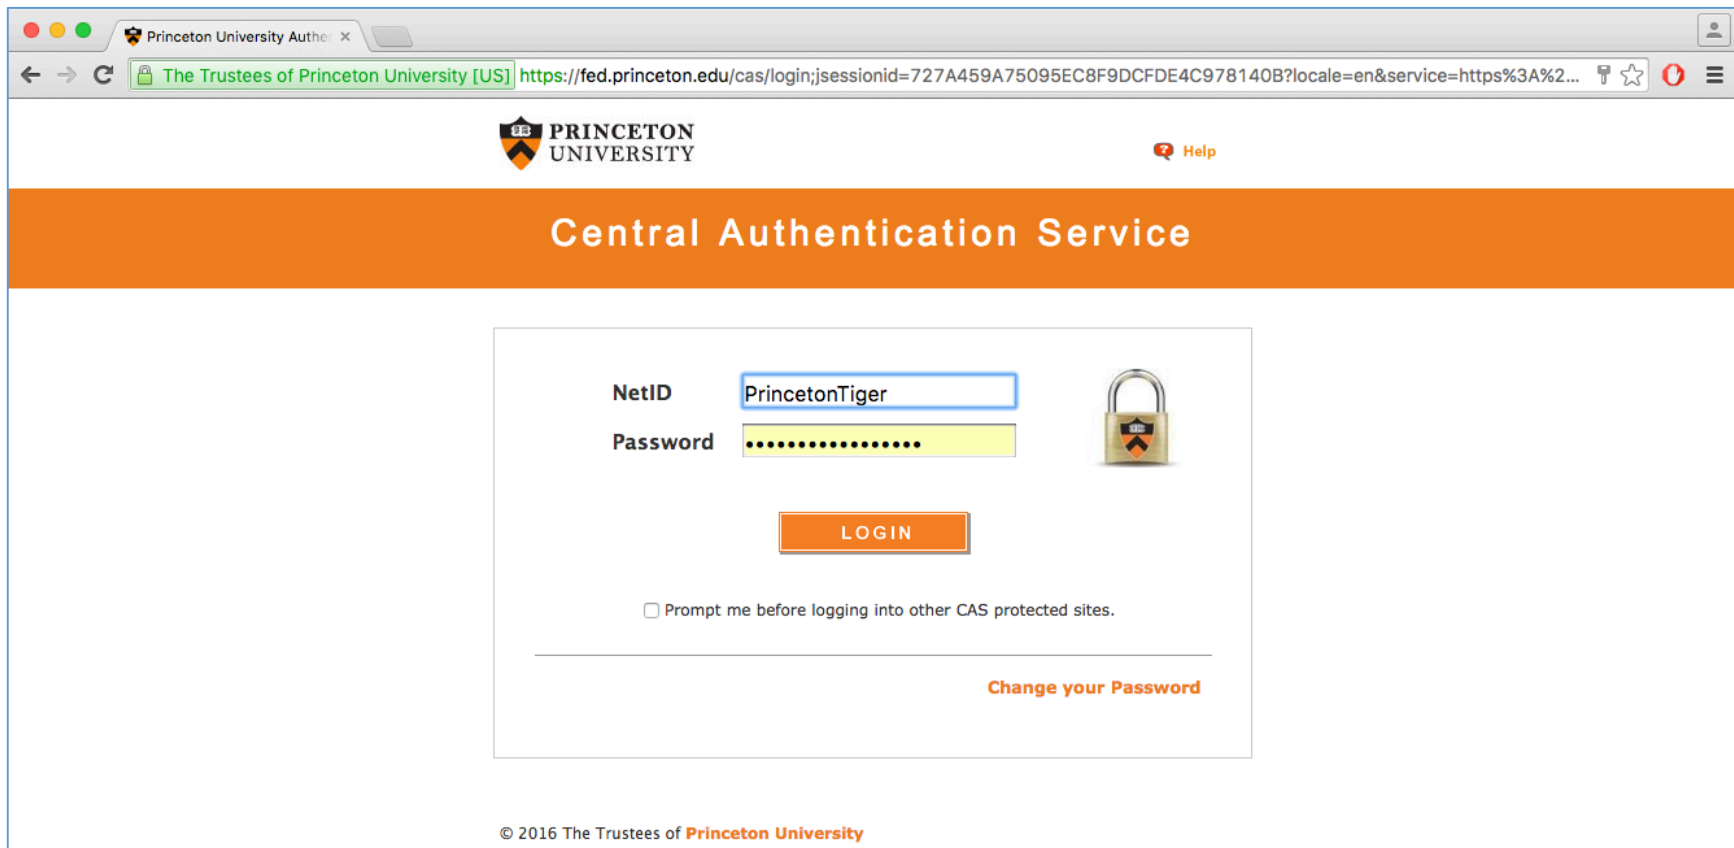

Please select one of the following identity providers and log in to the account you wish to link to your existing Globus account. You can also [link an email address](#) to your Globus account. (Your Globus username and password used prior to February 13, 2016 is now Globus ID)

Princeton University

Continue

 Globus uses CILogon to enable you to Log In from this organization. By clicking Continue, you agree to the [CILogon privacy policy](#) and you agree to share your username, email address, and affiliation with CILogon and Globus. You also agree for CILogon to issue a certificate that allows Globus to act on your behalf.

3. You will be redirected to Princeton's Central Authentication Service page. Enter your Princeton NetID username and password.

The screenshot shows a web browser window with the Princeton University Central Authentication Service (CAS) login page. The browser's address bar shows the URL: <https://fed.princeton.edu/cas/login;jsessionid=727A459A75095EC8F9DCFDE4C978140B?locale=en&service=https%3A%2...>. The page features the Princeton University logo and a "Help" link. A prominent orange banner reads "Central Authentication Service". Below this, a login form is centered, containing a "NetID" field with the text "PrincetonTiger", a "Password" field with masked characters, and a "LOGIN" button. To the right of the password field is a padlock icon. Below the login button is a checkbox labeled "Prompt me before logging into other CAS protected sites." and a link for "Change your Password". At the bottom of the page, the copyright notice reads "© 2016 The Trustees of Princeton University".

4. You will be redirected to Duo authentication page. Authenticate via your own Duo mechanism. Please refer to the links below for more information on Duo two-factor authentication.

- [Princeton Duo Two-Factor Authentication Video Tutorial](#)
- [Princeton Knowledge Base on Duo Security](#)

The screenshot shows a web browser window with the Princeton University logo and the text "Central Authentication Service". The main content area displays a Duo authentication dialog box titled "Duo authentication is in progress...". The dialog box features a Princeton University shield logo on the left and a "Choose an authentication method" section on the right. The methods listed are "Duo Push" (checked and marked "Used automatically"), "Call Me", and "Enter a Passcode". Each method has a corresponding green button: "Send me a Push", "Call Me", and "Enter a Passcode". Below these options is a checkbox for "Remember me for 90 days". At the bottom of the dialog, there is a blue bar with the text "Pushed a login request to your device..." and a "Cancel" button. Below the dialog, there is a "Not you?" link and a "Change your Password" link. The footer of the page reads "© 2016 The Trustees of Princeton University".

5. After a successful Duo two-factor authentication process, Globus will tell you to login with your primary (existing) account again.

6. Check that your new identify and existing Globus account are linked.

The screenshot shows the Globus account management interface. At the top, there is a navigation bar with the Globus logo and links for 'Manage Data', 'Publish', 'Groups', 'Support', and 'Account'. Below the navigation bar, the page is titled 'Account' and includes links for 'Manage Your Consents' and 'Logout'. The main section is titled 'Identities' and contains two identity entries. The first entry is for a user identified as 'via Princeton University'. It lists the name, username, and email address, and notes that this is the user's 'primary' identity. The second entry is for a user identified as 'via Globus ID'. It lists the name as 'Hyojoon Kim', the username, and the email address. The organization is listed as 'Princeton University', and a red box highlights the text 'This is a linked identity.' Below the identities section, there is a section for 'Globus Plus' which explains that Globus Plus provides enhanced features on personal endpoints. It states that the user does not currently have Globus Plus and provides instructions on how to get it through an organization's subscription. A dropdown menu is provided for selecting an organization. At the bottom, there is a section titled 'Didn't find your organization?' which provides contact information for organizations that prefer not to be listed.
